GESTIÓN
DE LA CALIDAD

ISO 9001

HECAPO S.A. is a family company established in 1984 specialized in the production of copper Tap Connectors.

Cutting-edge enterprise in this production, 36 years later became the N°1 European of this product with the widest range of market.

The work, passion and investment of everyone have made it grow as a recognized company as far as quality and professionalism are concerned.

Attending to product quality demand, the company has completed this range with a wide range of copper and brass fittings specifically for refrigeration.

Always aware of its customers' needs and the market, HECAPO S.A. combines an accurate work manufacturing its products in accordance with the Standards in force, and with the duty of customers' satisfaction.

Helia Calvillo **General Manager**

Hecapo, S.A, entreprise fondée en 1984, avec une continue activité industrielle de plus de 36 ans, marquée par la passion pour notre profession et une constante investissement en formation de notre équipe et recherche en travaux techniques, pour offrir jour à jour les meilleures alternatives à nos clients.

Entreprise pionnière dans la fabrication du "Raccord deux pièces" en cuivre et, sans doute, avec la plus large gamme de modèles et dimensions de ce produit existant en ce moment au niveau mondial.

En répondant aux nouveaux besoins du marché, ont développé notre ligne de produits, entre d'autres, avec une large gamme de raccords cuivre et laiton, destiné au secteur de la réfrigération.

Parce qu'on veut que vous continuez à avoir confiance à notre travail et avec la rigueur avec laquelle on le fait, on veut faire remarquer notre haut engagement avec la qualité, basé dans la fabrication sous Normes et une attention très personnalisée, qui sont notre plus grand et meilleur actif.

Helia Calvillo **Directeur Général**

Manufactured according to **UNE EN 14800**.

Flexible connection with no expiry date.

Butaclik® Stainless steel flexible hose with swivel nut for butane cylinder - Manufactured according to UNE EN 14800 Standard

Butaclik® Connexion flexible Inox écrou tournant pour bouteilles de butane -
Fabriqué selon la Norme UNE EN 14800

Code	Info				
5251000120	F-nipple - F 1/2	1000	12-14 mm	1	10
5251500130	F-nipple - F 1/2	1500	12-14 mm	1	10

Note: Other sizes are available on request.

1 - PVC outer protection tube

2 - AISI 304 stainless steel mesh

3 - AISI 316 L corrugated stainless steel inner tube

Flexible connection with no expiry date.

Spare parts

Pièce de rechange

Code	Info	
5000000000	Replacement safety valve for Gasclik and Giraclik	1
5250000000	Spare regulator connection for 12-14 mm nipples	1
5250100000	Connection adapter for 10-12 mm nipple	1

- **Simple:** easy connection between cylinders and household appliances..

- **Safety:** Patented connection system, which uses a piece of deformable material that fits perfectly to the shape of the nipple

- **No leaks:** This new connection system ensures a perfect seal.

- **Without expiration:** the manufacture of Butaclik with metallic materials, allows offering a product without expiration, increasing security in the installations.

- **Easy installation:** Just a few turns of the connector nut on its own base and you're done.

- **Guarantee:** Manufactured according to UNE EN 14800 Standard

Metallic S. S. extensible tube

Extensibles

Wall boiler connection kit with cover

Kit connexion chaudières avec revêtement

Code	Info		
517000000	Connection wall boilers	1	20
517000010	Insulated connection wall boilers	1	20

Kit composition:

- 2 stainless steel flexibles DN 12 MH 1/2 length 200/400 + joints (WATER)
- 2 stainless steel flexibles DN 20 MH 3/4 length 200/400 + joints (WATER)
- 1 stainless steel flexible DN 12 HH 1/2x3/4 length 200/400 + gaskets (GAS).

Characteristics:

(1) AISI 316L stainless steel corrugated tube (2) AISI 316L stainless steel corrugated tube + coating

AISI 303 stainless steel fitting, nickel-plated brass nut, threaded according to EN 228-1 standard

Maximum working pressure : 10 bar

Maximum temperature : 125°C

Gasket NBR 1/2 for gas

Gasket EPDM 1/2, 3/4 and 1 for water

M-F Stainless steel flexible connections with flat joint

Connexions flexibles extensibles M-F en Inox joint plat

Applicable to HCFC or HFCA refrigerants.

Working temperature of -40C~+120°.

Maximum working pressure 42 bar.

SAE threaded and ODF welded connections.

100% 3A molecular sieve, which allows to maintain a very reduced amount of humidity in the system.

KIT DE DÉMARRAGE RÉFRIGÉRATION

Ref:4640000001

Boîte à outils pour débiter dans le monde du climat, composée avec les principaux outils pour réaliser toute installation de **CLIMATISATION** ou **POMPES À CHALEUR**.

CONTENU DE LA BOÎTE

- Malette composée de :
 - Manifold 2 voies Ø80 avec prises 5/16 pour gaz R32 et R410
 - Tuyaux flexibles de charge avec vanne et filetage 5/16 pour gaz R32 et R410
 - 2 Adaptateurs de charge M5/16 x F1/4.
 - Vanne de charge sans perte pour gaz réfrigérants.
- Malette composée de :
 - Dudgeonnière excentrique débrayable.
 - Alésoir type crayon.
- Pompe à vide double effet R32 de 42l/min.
- Coupe-tube professionnel.
- Kit de cintrage des tubes frigorifiques isolés.

Charging hose with valve for R410A, R32 and R290 gases

Tuyaux flexible de charge avec vanne, pour gaz R410A, R32 et R290

Code	Info				
4645410090	1/4 SAE x 5/16 SAE 45°	900	800-4000 PSI	1	40
4645410150	1/4 SAE x 5/16 SAE 45°	1500	800-4000 PSI	1	25

Provided with Teflon (PTFE) gaskets. Hose yellow, thread 1/4 SAE x 1/4 SAE 45°. Working temperature: -30° + 110°

Charging hose with valve 5/16 x 5/16 for R410A, R32 and R290 gases

Tuyaux flexible de charge avec vanne 5/16 x 5/16 pour gaz R410A, R32 et R290

Code	Info				
4645321500	5/16 SAE x 5/16 SAE 45°	1500	800-4000 PSI	1	25

Provided with Teflon (PTFE) gaskets. Working temperature: -30° + 110°

Kit 10 Teflon anti-loss valve gasket for charging hose & charge valve

Kit 10 joints de valve anti-perte en téflon PTFE pour flexibles de charge et vannes de charge

PRO digital manifold for refrigerant gases

Manifold numérique PRO pour gaz réfrigérants

Code		gases	
4644014000	1/4 SAE	R290 - R32 - R410 - R134 - R407 ...	1

Composition:

Description

Description	Unit
Reinforced box	1
2-way digital manifold	1
Clamp with probe to perform tube temperature measurements	2
Adapter 1/4 SAE male to 5/16 SAE female	2
1/4 SAE H-H 1500mm charging hose set	1
1.5v AA battery as power supply for screen	4

Parameters for measurement:

- Pressure: psi / kPa / bar
- Temperature: °F / °C
- Vacuum: micron / Torr / mmHg / %

2 Way manifold ball valve (1/4 turn) with protection

Manifold 2 voies avec vannes à bille (1/4 tour) avec protection

Polybender Internal Copper Tube Bender

Kit de cintrage des tubes frigorifiques isolés

Code	Info	Length		
4646520000	1/4 - 3/8 - 1/2 - 5/8	4 meters	1	10

Advantages:

- Facilitates the bending of the copper tube for air conditioning installations.
- Allows bending without removing the insulation.
- Prevents the tube from being crushed in the installation and bending process.
- Reusable product in multiple facilities.

Flaring tool PRO set eccentric with battery

Dudgeonnière PRO excentrique à batterie

Code	Ø	Info	
4641200000	5/16 to 3/4	Eccentric	1

Composition:

Delivered in a practical box composed of:

- 5 molds for flaring tubes of 5/16 1/4, 3/8, 1/2, 5/8 and 3/4
- 2 pliers to accommodate the dies.
- 4000mAh - 18v lithium battery
- Battery charger.

Accessories for refrigeration

Accessoires pour la réfrigération

PRO eccentric flaring tool with battery spare parts

Recharges dudgeonnière PRO excentrique avec batterie

Code	Info

4641203400	Mould flaring tool 3/4	1
4641201200	Mould flaring tool 1/2	1
4641220000	4000mAh - 18v lithium battery	1

Ratchet Flaring tool PRO set

Coffret Dudgeonnière PRO excentrique "à cliquet"

Code	Ø	Info	
4646014340	1/4 to 3/4	Flaring tool PRO + Pipe cutter + Reamer	1

Accessories for refrigeration

Accessoires pour la réfrigération

Flaring tool drill bit set

Jeu de mèches de forage d'évasement pour perceuse

Code	Ø	
4646530000	1/4 - 3/8 - 1/2 - 5/8 - 3/4	1

Flaring tool with clutch

Dudgeonnière excentrique débrayable

Code	Ø	Info	Case		
4646143400	1/4 to 3/4	Excentric flatterer + Reamer	1	1	10

Thanks to the internal eccentric cone, it allows a better internal opening of the tube, obtaining a precise and uniform work in the flaring of the tube. It guarantees the thickness maintenance.

Expander tool Drill Bit Set

Jeu de mèches extenseurs de tuyau pour perceuse

Code	Ø

TECHNICAL DATA

Voltage: 220 240V 50 60Hz 110 120V 60Hz

Power: 3/4HP

Engine speed: 1450 rpm. 50 Hz - 1750 rpm 60Hz

Pressure switch: 38,5 bar / 3850 KPa (558 psi)

Measurements: 400mm x 250mm x 360mm

Compatible gases:

- Category III: R12, R134A, R401C, R406A, R500, 1234yf
- Category IV: R22, R410A, R401B, R402B, R407C, R407D, R408A, R409A, R411A, R411B, R412A, R502, R509
- Category V: R402A, R404A, R407A, R407B, R410A, R507, R32

FEATURES

3 functions: Open close / Input output / Purge recovery

Oil-free compressor, maintenance-free operation

"Purge" function, emptying residual refrigerant from the unit (self-cleaning mode)

High and low pressure gauges

detachable cable

1/4 thread connections

Accessories for refrigeration

Accessoires pour la réfrigération

Filtration kit for recovery units

Kit de filtration pour stations de récupération

Code	
4646900010	1

Kit Composition:

- 1 1/4 SAE M-F fluid sight glass
- 1 1/4 SAE filter connection tube of 180 mm.
- 1 Filter drier M-M of 1/4 SAE Type DSF 032 mm capacity 50 cm³

Manufactured in ABS, guaranteeing high resistance to impacts and high temperatures.

It has 13 measuring selections: bar, mbar, KPa, kgf/cm², mmHg, cm H₂O, Ozf/in², Psi, inHg, inH₂O, Hpa, Pa.

Supplied in storage case: **includes connection cable for recharge, clear silicone tubing for connection and 2 brass adapter nipples for connection to Ø7 x 11 mm silicone tubing (Ref. 7010000000)**

AENOR

GESTIÓN
DE LA CALIDAD

ISO 9001

J. PARETA S.A. is a Spanish family company established in 1945 by Jaume Pareta. This industrial activity of nearly 75 years has been defined by a constant investment in research and technology in order to satisfy our customers' needs.

Specialized company and leader in the production of float valves and gas valves in accordance with the Standards in force and guaranteed by "N" Aenor Product Certification.

Our target: a personalized attention, commitment and a manufacturing process for a high quality product to meet our customers.

We are also specialized in the production of brass and stainless steel float valves, as well as in a wide range of brass products for the plumbing, heating and gas markets.

Helia Calvillo **General Manager**

J. PARETA, S.A. est une entreprise familiale espagnole créée en 1945, par Jaume Pareta. Cette activité industrielle de près de 75 ans a été marquée par un investissement constant dans la recherche et la technique afin de satisfaire les besoins de nos clients.

Entreprise spécialisée et leader dans la fabrication de vannes gaz suivant les normes en vigueur de la certification "N" Aenor.

Nous sommes aussi spécialisés dans la fabrication de vannes flotteurs en laiton et inoxydable, ainsi que dans une large gamme de produits en laiton pour les marchés de plomberie, chauffage et gaz.

Notre objectif: une attention, un engagement et un processus de fabrication pour une qualité de produit en satisfaisant la clientèle.

Helia Calvillo **Directeur Général**

Quality Management System Certificate

1045/2012 004/00

AENOR certifies that the organization

J. PARETA, S.A.

has a quality management system according to the
covered by the scope and validity of the main certificate

Design, production and commercialization of fittings for gas
installations and plumbing. For float valves, floats and fittings for
tanks. Hand operated metallic ball val
installations, and water networks.

which is/are carried out in: P.I. COMTE DE SERT, CL MOTORS, 4

M-M Thermostatic Mixing Valve

Mitigeur thermostatique M-M

Code					
5397012000	1/2"	129 mm	117 mm	1	20
5397034000	3/4"	137 mm	130 mm	1	20
5397010000	1"	149 mm	153 mm	1	20

Includes filter and non-return valve. Working temperatures between 20°C and 60°C

The Pareta M-M thermostatic mixing valve allows a constant domestic hot water temperature to be maintained. It is usually used in water heaters (DHW) that can reach maximum temperatures between 55°C and 60°C.

With the use of our valve, the efficiency of the heater will improve and **we will reduce water and energy losses by around 30% by not having to adjust the water temperature to the desired level every time we demand consumption at the supply points (sink, shower, etc...).**

In addition, we will increase safety in the house as we will be able **to avoid burns**, usually produced when we only turn on the hot water, as the water temperature will always be regulated previously.

5845200000	2	16	M-F 3/8	1
5845212000	2.1/2	16	M-H 3/8	1

Kit consisting of a brass «Y» filter plug and a 3/8 M-F valve. It allows the drainage and cleaning of the filter simply by opening the valve. It avoids the network cut for cleaning tasks and no type of manipulation is necessary. Plugs up to 1" use the M-F 3/8 "butterfly" valve. Plugs from 1.1/4 to 2 use the M-F 3/8 "lever" valve. Both controls have a locking system in the closed position to prevent accidental or unwanted emptying. Cost savings and makes work easier. Adaptable to all our brass "Y" filters

Gas valves

Robinets pour gaz

Gas ball valve with inner flow limiter

Robinet gaz avec limiteur de débit interne

Code		DN		QN			
7820147100	20.150	10	37 mbar	1,0 m3/h	L.G.P	1	50
7820157100	1/2	10	22 mbar	1,6 m3/h	Natural Gas	1	50

The flow limiter inserted inside this tap complies with the requirements of the UNE-60719 Standard.

Although the tap can work at a pressure of 0.5 bar, the internal flow limiter must work without exception at the indicated pressure (20,150 to 37mbar and 1/2 to 22 mbar), never exceeding these pressures.

AENOR

GESTIÓN
DE LA CALIDAD

ISO 9001

Martigrap is a Spanish family company that develops its industrial activity since 1986 heading the gas sector with the production of gas meter centralizations for Natural Gas.

Almost 20 years ago and attending new customers demands and sector, we incorporated to our production the "FIXING SYSTEMS DIVISION" with a wide range of high quality products that allows any fixing type for light or heavy loads depending on domestic or industrial use.

The quality is supported by the production with new technologies that allow us the adaptability of our products to Standards and Company Certification ISO 9001-2000.

Our goal is to attend the new market demands and transfer the advantages and improvements carried out in our products because of the constant investigation and development.

Helia Calvillo *General Manager*

MARTIGRAP est une entreprise familiale espagnole créée en 1986 et spécialisée dans l'étude, la conception et la fabrication de colonnes Gaz Naturel et GPL.

Depuis 20 ans, une division "Système de Fixation" a été créée avec une large gamme de produits de qualité pour l'installation et la fixation de tubes et conduits tant pour des charges légères ou lourdes dans les domaines de plomberie, chauffage et industriels.

En exigeant sur la qualité des produits et en respectant les normes en vigueur, nous bénéficions de la certification d'entreprise ISO 9001-2000.

Notre objectif est de satisfaire les exigences de la clientèle en réalisant des améliorations dans nos produits par une recherche constante.

Helia Calvillo *Directeur Général*

Quality Management System Certificate

1045/2012 003/00

AENOR certifies that the organiza

MARTIGRAP, S.L.

has a quality management system according to the
covered by the scope and validity of the main certificate

Design, production and commercialization of gas counters
centralization; cooper parts under plans and fixes systems for
water and gas installations.

which is/are carried out in: P.I. GELIDENSE, 3, NAVE 20

GELIDA (BARCELONA)

Rafael GARCÍA MEIRO

Génova, 6. 28004 Madrid. España

Building
trust
together.

Certificate

AENOR has issued an IQNET recognized certificate that the organization:

MARTIGRAP, S.L.

**P.I. GELIDENSE, 3, NAVE 20-21B.
08790 - GELIDA
(BARCELONA)**

has implemented and maintains a/an
Quality Management System

for the following scope:

**Design, production and commercialization of gas counters centralization; cooper parts under plans and
fixes systems for water and gas installations.**

which fulfils the requirements of the following standard

ISO 9001:2015

Linked to the certificate ES-1045/2012

Registration Number: ES-1045/2012 - 003/00

First issued on: 2015-12-21 Last issued: 2024-12-21 Validity date: 2027-12-21

Alex Stoichitoiu
President of IQNET

DESCRIPTION:

This PYRAMIDAL support is specially indicated for the installation of pipes and supporting machinery on roofs and other places, offering a modular assembly system with FIXTRUT 41x41 profiles.

Maximum load per support 120 Kg.

Adjustable support kit for condensers

Kit de support de condenseur ajustable **(NEW)**

Code	Height adjustment	
8109902550	250 to 500 mm	4 sets

Support suitable for the construction of benches with 41x41 FIXTRUT profile, with the possibility of adjusting its height between 250 and 500 mm, with DRACOMET surface treatment.

Simple installation, by coupling the ADJUSTABLE SUPPORT (1) by pressure to our PYRAMIDAL SUPPORT (4), Ref. 8109930500, cutting by the professional of the profiles to the desired size, and fixing the profiles to the adjustable supports by means of the accessories: FINAL CONNECTION (2), for the corners of the profiles, and the CENTRAL CONNECTION (3), for the fixing of the crosspieces.

Kit composition:

- Adjustable support
- Final connection
- Central connection

Maximum admissible load 400 kg.

Other sizes can be manufactured on request.

- PIR 80 Kg/m3 shell, covered with a black PVC band.

- Thermal conductivity coefficient: < 0.036W (m.K) at 0°

- Tensile strength (NFT 56-107): 500 (±50) kPa

- Water steam resistance factor: $\mu \geq 10,000$

- Mounting, maximum distance between two supports: $\varnothing \leq 114 \text{ mm} \rightarrow 1.5 \text{ m} / 125 \text{ mm} \leq \varnothing \leq 160 \text{ mm} \rightarrow 2.5 \text{ m}$

Pipe clamps

Colliers

Advantages:

- Thermal pipe clamp, which allows the fixing of pipes, guaranteeing the continuity of the insulation.
- It prevents thermal bridges and water condensation in the clamp, so that the tube does not leak.
- The central ring in PIR, guarantees the screwing of the clamp without crushing the system.

Technical data:

Flammability of raw materials: UL 94 - V2

Moisture absorption: 2.7%-2.8% (23°C -50% R.H.)

Installation temperature: -10°C ~+85°C (thermo-stabilized material 115°C)

Operating temperature: -40°C ~+85°C. (material heat stabilized at 115°C)

Maximum temperature bearable over a short period of time: +110°C (thermo-stabilized material 130°C)

Good resistance to bases, oils, greases, petroleum derivatives, chlorinated solvents.

Limited resistance to acids.

Not resistant to phenols.

MEI is a company established in 1992, but with an experience over 50 years manufacturing pressure gauges.

The experience and professionalism of our team guarantees the best quality product and alternative in whatever situation.

The incorporation to GRUPO HECA has given us a new impulse offering us new markets and business opportunities placing us as a reference company in the sector.

Our target is the constant quality improvement, the service and customers' satisfaction that with their confidence and support give sense to our company.

Helia Calvillo **General Manager**

Mei est une entreprise créée en 1992, mais avec une expérience dans la fabrication de manomètres de plus de 50 ans.

L'expérience et le professionnalisme de notre personnel est la garantie de la qualité de nos produits et la meilleure alternative à chaque situation.

L'intégration de la société au Groupe Heca lui a donné une nouvelle impulsion et lui a ouvert les portes de nouveaux marchés et opportunités pour constituer une entreprise qui fait référence dans son marché.

Notre objectif est d'améliorer sans cesse la qualité des produits et le service pour donner satisfaction à nos clients.

Helia Calvillo **Directeur Général**

Atex Pressure switch (by order)

Pressostat ATEX (sur demande)

Code				Rearmament	Differential	
7110421700	simple	1/2 GAS	5/25 bar	autom.	1 Aluminium	1

ATEX & IECEx certified FC series pressure and temperature switches have been designed for use in hazardous areas and for severe applications in the Oil and Gas sectors like oil and gas pipelines, petrochemical plants refineries and generally in atmospheres which are potentially explosive. All switches are designed for gas group IIC, the most severe of the explosive gases, and hence can be used in lower severity atmospheres, typically in IIA and IIB. With grey cast iron enclosures, these can also be used in mines. SS enclosures can also be offered for highly corrosive atmospheres. Switches can be configured with a lot of options like electrical elements and sensing element configurations to suit the intended working media.

Heavy industrial vibratory protec Pressure switch (by order)

Pressostat industriel robuste antivibratoire (sur demande)

Code				Rearmament	Differential	
7110232391	simple	1/4 GAS	0,2/2,5 bar	autom.	0.2 Aluminium	1
7110232691	simple	1/4 GAS	0,5/10 bar	autom.	0.8 Aluminium	1

These switches have been designed for heavy duty applications, where the products should withstand vibrations or should have an exceptionally long life and repeat accuracy. Sturdy electrical elements, incast pin as a fulcrum to facilitate a smooth transition of bell crank lever for precise motion transfer, a wide scale (individual marked) with a specially designed rack and pinion system are its key features. Intended end uses can be large turbines, compressors, applications in thermal power plants, steel, cement and other such infrastructure industries. These switches can be configured with a lot of options like electrical elements and sensing element configurations to suit the intended working media.

Pressure switches

Pressostats

Process Pressure switch polycarbonate case (by order)

Pressostat de processus boîtier polycarbonate (sur demande)

Code				Rearmament	Differential	
7110332391	simple	1/4 GAS	0,2/2,5 bar	autom.	0,2	Polycarbonate 1
7110332691	simple	1/4 GAS	0,5/10 bar	autom.	0,8	Polycarbonate 1

These switches have been designed for lighter applications, requiring precise switching, for equipment mounted in the open air subject to rain, dust, etc. where the internal operation of the switch needs to be visible, the access to setpoint is internal, and can be sealed, yet the operation of the switch is visible due to the tough transparent polycarbonate cover. Typical applications are in industries like jet dyeing machines, water treatment plants, etc. where the atmosphere can be humid, dusty, slightly corrosive and generally detrimental to general purpose switches.

General applications Stainless steel pressure switch

Pressostat industriel INOX applications générales

Code				Rearmament	Differential	
7116240701	simple	1/4 GAS HEM-BRA (INOX)	0,5/7 bar	autom.	1,2-4	Aluminium 1

Electrode fastening: 3 mm braided cable Stainless steel AISI 316 Process connection threaded plug PVC 1.1/2 Gas. Electrical connection, PBT connection case. Temperature +70°C. Pressure 5 bar (20°C). IP67 protection, maximum 5 electrodes.

Stainless steel magnetic level switch

Interrupteur de niveau magnétique en Inox

Code	Info			
7730100100	IMN 40 Inox	40 mm	1	50

Fixed length made of AISI 316 stainless steel. Electrical connection silicone cable 1 m. Temperature -40+125°C, IP65. Process connection 1/8 Gas AISI 316. Length 40 mm. Cylindrical float 29x32 mm. NA contact 40W/VA-2A/230VAC/DC. Density 0.8g/cm2. Pressure 20 bar.

Brass magnetic level switch

Interrupteur de niveau magnétique en laiton

Code	Info			
7730100600	IMN 70 Brass	70 mm	1	50

Fixed length Electrical connection PVC cable 1 m. Temperature -30+60°C. IP65. Process connection 1/4 Gas brass. Length 70mm. Cylindrical float 29x50 mm. NA contact 40W/VA-2A/230VAC/CC. Density 0.7g/cm2. Pressure 20 bar.

Level

Niveau

PP magnetic level switch

Interrupteur de niveau magnétique PP

Code	Info			
7730102200	IMN 50 PPV	55 mm	1	50

Fixed length Electrical connection PVC cable 1 m. Temperature -30+60°C. IP65. Process connection M16x2 PP. Length 55mm. Cylindrical float 21x30 mm. NA contact 15W/VA-0.3A/230VAC/DC. Density 0.7g/cm2. Atmospheric pressure.

PP horizontal magnetic level switch

Interrupteur de niveau magnétique horizontal en PP

Code	Info			
7730100200	IMN 50 PPH	55 mm	1	50

Fixed length Electrical connection PVC cable 1 m. Temperature -30+60°C. IP65. Process connection M16x2 PP. Length 55mm. Cylindrical float 17x47 mm. NA contact 15W/VA-0.3A/230VAC/DC. Density 0.7g/cm2. Atmospheric pressure.

Horizontal short magnetic level switch in stainless steel

Interrupteur de niveau magnétique horizontal court en Inox

Code	Info			
7730102300	IMN 50 Inox F	82 mm	1	50

Fixed length Made of AISI 304. Electrical connection silicone cable 1 m. Temperature -40+120°C. IP65. Process connection 1/8 Gas. Length 82mm. Cylindrical float 17x47 mm. . NA contact 50W/VA-0.5A/230VAC/DC. Density 0.7g/cm2. Pressure 5 bar.

Horizontal long magnetic level switch in stainless steel

Interrupteur de niveau magnétique horizontal long en Inox

Code	Info			
7730100000	IMN 52 Inox H	94 mm.	1	50

Fixed length Made of AISI 304. Electrical connection silicone cable 1 m. Temperature -40+120°C. IP65. Process connection 1/2 NPT. Length 94mm. Cylindrical float 17x47 mm. NA contact 50W/VA-0.5A/230VAC/DC. Density 0.7g/cm2. pressure 5 bar

Specialists in manufacturing with Stainless Steel

Company founded in 1976 that has recently joined the Grupo Heca. Specialized in manufacturing and product development standardized with Stainless Steel and specific custom projects.

It works in four main divisions: Food equipment, dedicated to the food distribution sector; Hospital equipment, laboratories; Hospitality, restoration; Architecture and construction.

Conditions de vente

1. GENERAL SALES CONDITIONS:

- All the sales and deliveries of goods to carry out by the companies of the Group HECA (Hecapo S.A., Martigrap S.L., Mei S.L. et J.PARETA, S.A.) will follow our general conditions set out below, except in those orders in which there is a previous agreement in which case will be considered particular delivery conditions.

2. PRICES:

- Prices indicated in our Price-List are expressed in € and they can be modified at any moment without notice. The prices to be applied will be the only prices in force at the date of the order and after our confirmation.

3. DELIVERY TERMS:

- Delivery terms of our goods are always understood as EX-WORKS prices, except in such a case that we agree any other terms and have been confirmed with the order.

4. PAYMENT CONDITIONS:

- They will be negotiated between both companies with each one order. They will be accepted from Cash Payment to a max. of 60 days date of invoice.
- All our commercial transactions are guaranteed by a credit insurance company.

5. RETURNS:

- Any returned goods will be accepted without the previous confirmation and authorization of our Company. The goods will be returned FREE OF CHARGE.

6. JURISDICTION:

- The acceptance of the goods supposes the conformity with our general sales conditions being submitted in case of dispute to the Judges and Courts of Barcelona with renunciation to any other statute that could correspond.

7. WARRANTY:

- 2 years for manufacturing defects, not for installation defects or improper use of the product.

1. GÉNÉRALES:

- Toutes les ventes et livraisons de matériaux à effectuer par les entreprises composantes du Groupe Heca (Hecapo S.A., Martigrap S.L., Mei S.L. et J.PARETA, S.A.) se régleront suivant les conditions exposées dessus, à l'exception des commandes pour lesquelles un accord différent a été conclu, en ce cas on considérera les conditions particulières pour cette livraison.

2. PRIX:

- Les prix inclus dans notre tarif sont en EUROS, ils peuvent être modifiés à tout moment sans préavis. Les prix applicables seront ceux en vigueur au moment de placer la commande et suivant la confirmation de celle ci.

3. TRANSPORT:

- Les conditions de livraison de notre marchandise sont toujours considérées EX-WORKS, à exception d'accord différent entre les 2 parties, notifié dans la confirmation de commande.

4. CONDITIONS DE PAIEMENT:

- Elles seront les conclues entre les entreprises pour chaque commande, on peut accepté un paiement comptant jusqu'à 60 jours maximum.
- Toutes nos opérations commerciales sont assurées par une société d'assurance.

5. RETOURS DE MARCHANDISES:

- Aucun renvoi de marchandise ne sera accepté sans une autorisation confirmée par notre entreprise et, dans tous les cas, il sera fait franco nos usines.

6. JURIDICTION:

- L'acceptation de la marchandise suppose l'accord de nos 'Conditions Générales de Ventes'. En cas de litige seuls les juges et Tribunal de Barcelone seront compétents pour le règlement de ce litige.

7. GARANTIE:

- 2 ans pour les défauts de fabrication, pas pour les défauts d'installation ou la mauvaise utilisation du produit.
